Re: Letter of Recommendation

To Whom It May Concern,

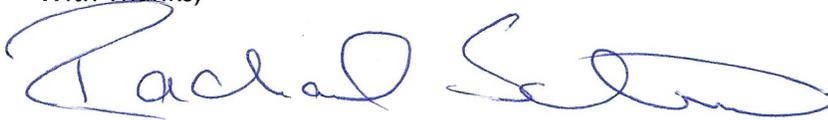

It gives me great pleasure to be writing this letter of recommendation for Chambliss & Rabil. During the past 6 months, I have had the pleasure of working side by side with Chris Dougherty and his team with Chambliss & Rabil to build the dental practice I had envisioned.

It took a team with great communication, attention to detail and quality workmanship to complete our office underbudget and ahead of schedule. I am beyond pleased with the expertise and professionalism the contractors and subcontractors with Chambliss & Rabil exhibited during my project. With weekly communication highlighting the week's accomplishments and outlining the upcoming weeks, I always knew where we were in the construction process.

I can confidently say that my partnership with Chambliss & Rabil General Contractors was an integral part in transforming my office vision into reality.

I look forward to working with them again as my practice grows!

With Thanks,

Rachael Schuette, DDS
