To Whom it May Concern,

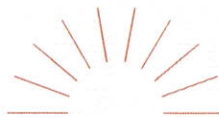

My recommendation of Chambliss & Rabil and Chris Dougherty cannot come more highly. When I made the decision to open a start-up pediatric dental practice, it was an overwhelming task to say the least. On top of the stress associated with building and opening a dental practice, I also started this project living in another state. I was very concerned about my inability to be present and follow the progress. Chris was very accessible during the entire project and was excellent in his communication. I also received weekly emails that included updates of progress and photos. This made my distance from the project for almost the entire process easy to manage and also helped alleviate my concerns.

In addition to the exceptional communication during the project, I was also extremely satisfied with the timeline of construction and the budget. I was provided with a timeline for construction and the project ran on time from start to finish. I was very pleased to have my office open on the date that I had intended when the project started. Chris and the entire team at Chambliss & Rabil were very budget minded during the construction. Chris provided me with options that allowed me to maximize my budget without compromising the esthetic and design of the office. The attention to detail and standard of exceptional work was apparent during the entire project.

Chambliss & Rabil did an exceptional job and created an office that is above and beyond what I had envisioned. I am very grateful to have chosen them as the contractors for this project and would utilize them again without question.

Regards,

Amanda Lee, DDS, PA
